

## **1. What I gained from the Industrial Talk**

Through the talk, I learned about the roles of Clarity Techworks Sdn Bhd employees (Mohamad Noor Ridwan, Syarifah Adilatul Hulwani, Liyana Amri, Saiful Habib Danial and Izzah Fatini). For example, their specific job scope, the tools utilised and the essential skills required.

Other than that, I gained insights from the Clarity Techworks employees. For example, they discussed the differences between student life and professional life in aspects such as commitment, independence, etc.

Finally, I gained advice from the Clarity Techworks employees. For example, to actively develop and publish software on GitHub. This helps to build a dynamic portfolio and foster community engagement.

## **2. Suggestions**

Addressing work-life balance during the talk would be advantageous. For example, the Clarity Techworks employees could share about the importance of maintaining work-life balance. They could also provide tips and strategies for managing stress and promoting well-being.

Other than that, providing networking opportunities during the talk would be beneficial. For example, Clarity Techworks Sdn Bhd could arrange networking sessions where students can connect with speakers and other professionals in the industry. This could foster a supportive environment for mentorship and knowledge exchange.

## **3. Others**

In conclusion, from this talk, I gained a lot of information, insights and motivation. This allowed me to gain more perspective, which will help me to efficiently adapt to the expectations and demands of my future workplace. I have also been inspired to put in more effort and strive to become an appealing candidate to potential employers.
